

## COMPLETE HF ONE-STEP FOAMING CLEANER

### DESCRIPTION

COMPLETE HF is a high performance, heavy duty alkaline foaming cleaner containing a proprietary blend of detergents/surfactants and water conditioning agents designed to remove tenacious soils and mineral scales, while leaving stainless steel equipment surfaces bright and shiny without the need for an acid wash. COMPLETE HF frees up time, reduces water usage as well as water effluent.

- Eliminates the need for an acid wash or rinse
- Reduces cleaning time
- Reduces water/ hot water usage
- Reduces effluent
- Penetrates and removes tenacious soils
- Removes and prevents mineral scale deposits
- Controls hard water conditions throughout the pH range

### DIRECTIONS

- For foam cleaning applications use a dilution of 2 - 6 ounces of COMPLETE HF to each gallon of water.
- For manual cleaning use 1 - 4 ounces of COMPLETE HF per gallon of warm water. Dilutions will vary depending on the soil type and load.
- For specific use recommendations or answers to any cleaning or sanitation questions you may have, contact us at (800) 248-8515, or send us an email at [info@acechem.com](mailto:info@acechem.com).

### PROPERTIES

Form .....	Clear liquid
Color .....	Colorless
Odor .....	Slight
Density .....	1.28
pH of a 1% solution .....	> 13
Foaming .....	High

**Special considerations and notes:** Not for use on soft metals.
