

## LIQUID BREW CLEAN INHIBITED BREWERY CLEANER

### DESCRIPTION

LIQUID BREW-CLEAN is a non-caustic, alkaline cleaner, designed for use in all CIP/COP cleaning operations found in the brewery. LIQUID BREW-CLEAN is formulated with sodium silicate, low/controlled foam surfactants, buffering compounds, and water conditioning agents.

- Non-caustic – Safe on soft metals, enhanced personal safety
- Low-foaming – Ideal for CIP
- Does not contain caustic (NaOH or KOH)
- Concentrated blend of surfactants – effectively penetrates soils and deposits
- Effective in hard water conditions - free rinsing, leaves no residue

### DIRECTIONS

- Use 1/2 to 4 ounces of LIQUID BREW-CLEAN per gallon of water. Recirculate for 20 to 40 minutes. Clean vessels at 140° F. Clean line circuits at 160° F. Rinse thoroughly with fresh water.
- For specific use recommendations or answers to any cleaning or sanitation questions you may have, contact us at (800) 248-8515, or send us an email at [info@acechem.com](mailto:info@acechem.com).

### PROPERTIES

Form .....	Clear liquid
Color .....	Light amber
Odor .....	Slight
pH of a 1% solution .....	>12
Foaming .....	Low

**Special considerations and notes:** safe on most soft metals when used recommended. Test use solution on an inconspicuous area or a piece of similar metal before using on soft metals. Contains sodium metasilicate. Sodium metasilicate can etch glass if not thoroughly rinsed and allowed to dry on glass surfaces.
