

## LIQUID DETERGENT

### DESCRIPTION

LIQUID DETERGENT is a concentrated surfactant blend designed for use both as a manual cleaner for hand cleaning chores and as a foam additive for use in both alkaline or acidic cleaning solutions. LIQUID DETERGENT will produce stable, copious foam solutions when applied with air operated foam cleaning devices.

### DIRECTIONS

- For manual cleaning, use 1/4 to 2 ounces of Liquid Detergent to one gallon of water depending on soil load.
- For foam cleaning, use 4 to 6 ounces of Liquid Detergent to one gallon water.
- Consult your Ace representative, or contact Ace Chemical Products, Inc. at (800) 248-8515 Consult your Ace representative, or contact Ace Chemical Products, Inc. at (800) 248-8515.

### PROPERTIES

Form .....	Clear liquid
Color .....	Amber
Odor .....	Slight
Density .....	1.04
pH of a 1% solution .....	7
Foaming .....	High
