# **Product Information**

## CLLC095 CHLORINATED RECIRCULATION BEER LINE CLEANER

#### CLEANS

- Beer Dispensing Lines
- Couplers
- Faucets
- Fittings
- Manifolds
- Fobs
- Hoses
- Drains

### **FEATURES/BENEFITS**

- Low-Foaming Ideal for CIP
- Chlorinated
  - Aids in the removal of protein soils
  - Effectively removes protein "bluing" from stainless steel surfaces
- Economical maximum strength
- Controls hard water conditions free rinsing, leaves no residue
- Effective in hard water conditions
- Safe on plastics & stainless steel

### DESCRIPTION

 CLLC095 is a chlorinated, high alkaline liquid, designed for use in all CIP/COP cleaning procedures found in the tap line cleaning industry. CLLC095 is formulated with sodium hydroxide, water conditioning agents, and chlorine to enhance cleaning performance and provide protein removal. CLLC095 penetrates, loosens and removes tenacious beer and beerrelated soils.

## **CLLC095** CHLORINATED RECIRCULATION BEER LINE CLEANER

#### **USE DIRECTIONS**

- For mechanical cleaning, use 2 to 8 ounces of CLLC491 per gallon of water and temperatures up to 140° F, dependent on conditions. Rinse well with fresh water until lines are free of chemical residue.
- For specific use recommendations, or answers to any cleaning or sanitation questions you may have, contact us at 1-800-248-8515.

#### **TECHNICAL DATA**

FORM	Liquid
COLOR	Light yellow
ODOR	Chlorine
POUNDS PER GALLON	9.9
pH of a 1% SOLUTION	12
CHLORINATED	Yes
FOAMING	Low
BIODEGRADABLE	Complete
COMPATIBILITY	Avoid soft metals

Always observe label precautionary statements and follow the information provided in our Material Safety Data Sheet for this product. A safety video presentation is available on request.
